FACILITY ADMINISTRATOR NAME:

SUBMITTERS NAME and contact info:

DATE:

NOTE TO ANY/ALL U.S. INSTITUTION OF PUBLIC ACCOMMODATION to include: school, church, medical facility, group home, hospital, store, restaurant or bar, gov't building, recreation area, etc. Regarding your requirement that attendees wear a medical device called a mask or receive a Covid Vaccine or Covid test, issued under emergency use authorization (EUA) experimental use only. As I, and/or my family may be entering your place of public accommodation, I am requesting that you review this document, provide the requisite information, and sign the form.

**The mandate for any individual to wear a mask,  
take the shot or a test for Covid  
VIOLATES FEDERAL LAW**

**This serves as notice that the mandate for any individual to wear a mask against COVID-19 for employment or attendance at a university, other school, place of employment, or other institution violates federal law.** All COVID-19 masks, (whether surgical, N95 or other respirators), PCR (or other) tests for Covid, and Covid vaccines, are authorized, **not approved or licensed**, by the federal government; they are Emergency Use Authorization (EUA) only. They merely “may be effective.”

**Federal law: Title 21 U.S.C. § 360bbb-3(e)(1)(A)(ii)(I-III) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) states:** individuals to whom the product is administered are to be informed—<sup>1,2</sup>

- (I) that the Secretary has authorized the emergency use of the product (only);
- (II) of the significant known and potential benefits and risks of such use, and of the extent to which such benefits and risks are unknown; and
- (III) of the option to accept or refuse administration of the product, of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks.

- 1) NYS Law prohibits all places of public accommodation (Health clinics and hospitals, Hotels and motels, Movie theatres and music halls, public buildings, schools, and government offices, restaurants and barrooms, Retail stores, etc.) from discriminating based on a person’s disability. A sizeable number of people have breathing or anxiety disabilities which preclude mask-wearing. A significant number of people have allergies that prevent them from wearing a mask or taking the vaccine ingredients into their body. For many, the vaccine ingredients may send them into shock and potentially death. **Are you aware your facility will be breaking the law should you require one of these harmful products as a requirement for entry into your facility?** \_\_\_\_\_ YES \_\_\_\_\_ NO
  
- 2) If we agree to **take a PCR test, wear a mask, or submit to a Covid vaccine**, as a condition of entry to your facility, will you provide **any other medical or financial support to me or my family** if any of us has an adverse event, physical or psychological, or develops a chronic condition, due to this long-term experiment?<sup>3,4,5,6,7,8,9,10,22, 23</sup> \_\_\_\_\_ YES \_\_\_\_\_ NO

3) **The Food and Drug Administration (FDA) requires that EUA (Emergency Use Authorization) product recipients be provided with certain EUA-specific information to help them make an informed decision about participating in the medical experiment of masking for hours at a time or taking an experimental drug cocktail via needle.**<sup>1,25</sup> Have you read, understood, and provided me (and all other attendees) with these fact sheets, and with current information on adverse events so that I/we can make an educated decision? \_\_\_\_\_ YES \_\_\_\_\_ NO

4) Potential and reported adverse events for long-term mask wearing include **hypoxemia, hypoxia, hypercapnia** with potential permanent, chronic effects of neurological damage due to long-term oxygen deprivation, as well as psychological injury resulting in **depression, anxiety and the potential of suicidal ideations.**<sup>11</sup> Potential reported adverse events for Covid vaccines are: **blood clotting and strokes, neurological damage, permanent disability, uncontrollable shaking or seizures,** and more.<sup>21,</sup>  
<sup>24</sup> **Have you reviewed the available databases of material adverse events reported to date for people who have participated in experimental covid-19 protocols?**<sup>4,5,7,9</sup> \_\_\_\_\_ YES  
\_\_\_\_\_ NO

5) The FDA's guidance<sup>13</sup> on emergency use authorization of medical products requires the FDA to "ensure that recipients are informed... **[t]hat they have the option to accept or refuse the EUA product....**"<sup>2</sup> Are you aware of this statement? Have you informed all facility users that they have the option to refuse? \_\_\_\_\_ YES \_\_\_\_\_ NO

6) With respect to the emergency use of an unapproved product, the Federal Food, Drug and Cosmetic Act, Title 21 U.S.C. 360bbb-3(e)(1)(A)(ii)(I-III)<sup>12</sup> reiterates that individuals be informed of "**the option to accept or refuse administration of the product,** [and] of the consequences, if any, of refusing administration of the product, and of the alternatives to the product that are available and of their benefits and risks." If experimental Mask-wearing or vaccines for Covid-19 is ever approved by the FDA, state legislation would be required in order to allow companies to mandate mask-wearing or vaccines. Are you aware of this fact? \_\_\_\_\_ YES \_\_\_\_\_ NO

7) EUA products are unapproved, unlicensed, and experimental. Under the **Nuremberg Code**, the foundation of ethical medicine—no one may be coerced to participate in a medical experiment. The individual's consent is absolutely essential. No court has ever upheld a mandate for an EUA product. In ***Doe #1 v. Rumsfeld, 297 F. Supp. 2d 119 (2003),***<sup>15</sup> a federal court held that the U.S. military could not mandate EUA vaccines for soldiers: "...[T]he United States cannot demand that members of the armed forces also serve as guinea pigs for experimental drugs" (*Id.* at 135). Are you aware of this? \_\_\_\_\_ YES \_\_\_\_\_ NO

8) The United States Code of Federal Regulations<sup>16</sup> and the FDA require the informed consent of human subjects for medical research. The EUA Covid-19 products, including masks, Covid tests, and Covid

Vaccines are unapproved, unlicensed, investigational products that are all in their experimental stage. It is unlawful to conduct medical research on a human being, even in the event of an emergency, unless steps are taken to secure the **informed consent** of all participants. **Are you aware of this?** \_\_\_\_\_ YES  
\_\_\_\_\_ NO

9) According to Federal Trade Commission (FTC) Guidelines<sup>17</sup> and the FTC's "Truth In Advertising,"<sup>18</sup> promotional material—and especially material involving health-related products—cannot mislead consumers, omit important information, or express claims. All of this falls under the rubric of "**deceptive advertising**" (whereby a company is providing or **endorsing a product**), whether presented in the form of an ad, on a website, through email, on a poster, or in the mail. For example, statements such as "all students are required to 'mask-up' to make the campus safe" or "it's safe and effective" regarding vaccines, leave out critical information. Critical information includes the facts that mask-use to prevent Covid-19 transmission is an unapproved EUA experimental procedure that "may" or "may not" prevent Covid, won't necessarily make campuses safer, and could in fact cause harm. Not providing links or attachments of the manufacturers' fact sheets and current information on adverse events is omitting safety information. **Are you aware of this?** \_\_\_\_\_ YES \_\_\_\_\_ NO

10) Whereas pharmaceutical companies that manufacture, and direct the use of, EUA products have been protected from liability related to injuries or deaths caused by experimental agents since the PREP Act<sup>14</sup> was enacted in 2005, **companies, schools, and all other institutions or individuals who mandate experimental products on any human being are not protected from liability.**<sup>14</sup> Are you aware that you do not enjoy such liability protection?

\_\_\_\_\_ YES \_\_\_\_\_ NO

11) Are you aware that a person could file a **civil suit** against you, personally, should anyone suffer an adverse event, death, or expulsion from your facility for refusing an EUA Covid-19 experimental protocol that you are implementing as a pre-requisite for entrance?

\_\_\_\_\_ YES \_\_\_\_\_ NO

12) There is a major lawsuit about to be filed in NYS, that will prove that there was never appropriate data to support the declaration of a 'public health emergency'. NY is the 14<sup>th</sup> state to file this suit.<sup>20</sup> Once that determination is made in a court of law, every bit of injury to an individual (loss of income, mental harm, emotional harm due to shaming over fraudulent mandates, loss of a loved one during Covid-19 lockdowns, etc) will be open for litigation and compensation. **Are you aware of this fact, and do you realize if you continue to participate in this fraudulent mandate, that you will be opening your facility, as well as you personally, to litigation and financial damage suits?**

\_\_\_\_\_ YES \_\_\_\_\_ NO

---

13) NYS Dept of Health issues **guidance** to Schools and other facilities. Guidance is advice, IT IS NOT LAW. Definition of guidance: *advice or information aimed at resolving a problem or difficulty, especially as given by someone in authority.* NYS Governor has publicly stated that he's leaving it up to each school to

determine their own path forward, and they can consider using the guidance from the DOH. It is common knowledge that LAW is higher than guidance. When a school, other facility, or an individual breaks the law, they can face litigation. When facilities DO NOT follow guidance, because they must follow the current law, they are acting in good faith, following the moral, just and lawful path. Following guidance that has no defined science to back it up (have you seen any?), is acting as a puppet and potentially a co-conspirator to a crime.<sup>25</sup> **Are you aware of the difference between law and guidance? And the gravity of breaking federal law?** \_\_\_\_\_ YES \_\_\_\_\_ NO

---

14) CDC and Dept of HHS run a program called the **Vaccine Adverse Events Reporting System (VAERS)**. According to VAERS, since the vaccine for Covid was introduced in mid-December through May 14<sup>th</sup> 2021, the following adverse events were reported following vaccination: DEATHS- 4,201, LIFE THREATENING EVENTS- 3,860, Emergency room visits - 29,653 and HOSPITALIZATIONS - 12,625.<sup>21</sup> Were you aware that this registry existed? If you compel folks that enter your facility to be vaccinated as a condition of entry, **are you aware that they could be severely injured or killed as a result of your request. How would you feel if one of your attendees suffered as a result of your 'mandate'?** \_\_\_\_\_ YES \_\_\_\_\_ NO

---

15) **FDA has prepared Vaccine EUA Fact Sheet for Recipients and Caregivers. Here are some excerpts:**

---

- *"The \_\_\_\_\_ COVID-19 Vaccine is an **unapproved** vaccine."*
- *"There is **no FDA-approved** vaccine to prevent COVID-19."*
- *"There is a remote chance that the \_\_\_\_\_ COVID-19 Vaccine **could cause a severe allergic reaction.**"*
- *"**Serious and unexpected side effects may occur.**"*
- *"\_\_\_\_\_ COVID-19 Vaccine is still being **studied in clinical trials.**"*
- *"Report vaccine side effects to FDA/CDC Vaccine Adverse Event Reporting System (VAERS). The VAERS toll-free number is 1-800-822-7967 or report online..."*
- *"It is your choice to receive or not receive the \_\_\_\_\_ COVID-19 Vaccine. **Should you decide not to receive it, it will not change your standard medical care.**"*
- *"Currently, there is no approved alternative vaccine available for prevention of COVID-19."*
- *"The Countermeasures Injury Compensation Program (CICP) is a federal program that may help pay for costs of medical care and other specific expenses of certain people who have been seriously injured by certain medicines or vaccines, including this vaccine."<sup>25</sup>*

**Do you know which vaccine EUA fact sheet states these facts? Did you know these facts were part of the Covid Vaccine Fact Sheet?** \_\_\_\_\_ YES \_\_\_\_\_ NO

ADMINISTRATOR, ONCE YOU HAVE READ THE ENTIRE FORM, PLEASE SIGN AND RETURN TO ME FOR MY RECORDS.

*As the legally authorized officer of this facility, I have read all of the above information, have provided my attendees with all of the information that the FDA requires be provided to recipients of the Covid-19*

*experimental protocols, and do hereby agree to assume 100% financial responsibility for covering any and all expenses from adverse events, including death or long-term psychological or neurological damage, through insurance coverage or directly out-of-pocket. In addition, I confirm that the individual shall not be denied access to this facility, should they decline to participate in any Covid-19 experimental product.*
